Design

**Me Design** has been serving in the weaving industry with more than twenty years of experience in jacquard tape production. In the face of the changing and developing needs of the markets, Me Design was able to prove itself through its strong design and solution-oriented direction in production; It stands out with its remarkable product range, various material types, optimal quality-price relationship, precision, and fast delivery service.

# WHY ME DESIGN

## Quick Design

*Considering the usage characteristics of your order, the most suitable weaving design is made*

## Quality

*The yarns used to comply with öeko tex and hygiene certificate and European conformity certificates*

## Reasonable Price

*Production is carried out at minimum prices by considering the quality-price balance.*

## Fast Production

*A customer-oriented production period is planned during the deadline*

## Mode Of Transport

*Deliveries are made with logistics companies that carry out land, air, and sea transportation as our customers desire.*

## *ME DESIGN PRODUCTION PLAN*

Orders from our customers are examined.

The yarn selection is made by taking into account the place of use and features of the ordered accessory.

Weaving is planned according to the way of sewing or usage.

Production sample is made.

The production sample is sent to the customer.

Corrections are made in line with the criticisms from the customer and production begins.

The Cornerstone  
of our Success

### *Personnel*

Every Me Design Group employee regards him- or herself as part of the globally active concern with Turkish roots.

We are very aware that well-trained and motivated employees constitute the foundations of our success and therefore both lead and challenge them in a targeted manner.

Our managerial culture is based on individual responsibility and solution-oriented thought and action.

We implement occupational safety, accident prevention, and health promotion measures for the safeguarding of the workforce

Innovation and  
Value added

### *The Guarantee of Our Competitiveness*

The guarantee of our competitiveness

Using a high degree of innovative capacity and the latest technology, we develop our products in line with existing or future customer needs.

We focus our innovations and wealth creation on those activities that enable us to achieve a competitive advantage and secure our know-how leadership.

Customer  
Satisfaction

### *Our No. 1 Priority*

Me Design is favored by our customers for its quality service and accurate production.

As Me Design, we have established a perfect production track in the center of Istanbul, together with its experienced staff of twenty years.

We established the production team by meeting with designers and weavers who are experts in their fields, who can respond to the wishes and thoughts of all our customers, and which have European quality and standards.

Me Design set out to bring first-class textile accessories to its customers. Through the service and production we offer, we enable our customers to reach the products they want at the fastest and most affordable prices.

# *In Our Production Park*

Used by our expert team  
11 Electronic jacquard loom,  
With 11 standard looms  
It is suitable and equipped to respond to an average  
of 750,000 meters of monthly production.
